I am a self-taught front end developer. I am passionate about coding and currently improving my skills in HTML, CSS, and Javascript. I am looking to find a internship/entry level job where I can implement what I have learned and be able to improve and learn new skills.

Projects

Portfolio

[\(GitHub\)](#)

March 2018

Tools Used: HTML5, CSS3, Javascript

Created a portfolio where I could show my work. Making it a responsive web design.

Meditation Countdown

[\(GitHub\)](#)

March 2018

Tools Used: HTML5, CSS3, Javascript

Created a countdown timer to keep better focus while meditating. While countdown is running you will hear a stream of water and a dripping water sound. You will need to keep track of how many drips you heard and input it at the end to see if you were able to keep track of all the drips. Main focus was on Javascript.

Google Homepage

[\(GitHub\)](#)

February 2018

Tools Used: HTML5 and CSS3

Recreated the front end of the Google homepage using HTML 5 and CSS 3.
